

# Monkey Maths Plan

## Year 1 Week Beginning-Autumn 2

Learning Intention	Key Vocab	Resources	Activity
To understand addition.	Add Plus Altogether Total Sum of	Monkey  Food (real or role play)  Shopping lists	<p>Set up a small shop</p> <p>Explain that Monkey is having a party and that he wants the children to do some shopping for him. He gives each child a list of items to buy. For example one child needs to collect 4 apples and another needs to collect 6 pears (use real fruit or role play objects). How much fruit is there altogether? Teacher to model adding the groups together and counting the total. Give the children a chance to do this.</p> <p>Do the same again for biscuits. He wants 3 plain biscuits and 2 chocolate biscuits. How many biscuits in total?</p> <p>Challenge- Is there a quicker way of adding the objects? Model counting on from the bigger number when combining the groups.</p>
	<b>Questions</b>		
	<p>How much fruit is there altogether?</p> <p>How many biscuits in total?</p> <p>Is there a quicker way of adding the objects?</p>
